Appl. No. : 10/827,101  
Filed : April 19, 2004

### SUMMARY OF INTERVIEW

#### Exhibits and/or Demonstrations

NONE

#### Identification of Claims Discussed

Applicant and Examiner discussed Claims 19, 34, 44, and 45.

#### Identification of Prior Art Discussed

U.S. Patent No. 3,030,951 to Mandarino was discussed with the Examiner.

#### Proposed Amendments

Applicant proposed to amend Claim 19 by replacing the term "space" with "facet joint".

#### Principal Arguments and Other Matters

The Examiner stated that upon further review of previously allowed Claim 19, she did not believe that the claim was patentable over U.S. Patent No. 3,030,951 to Mandarino. Applicant believes that Mandarino fails to teach accessing a space between a first facet on a superior articular process of a first vertebra and a second facet on a corresponding inferior articular process of a second vertebra and does not believe that the any amendment is required to overcome the Mandarino reference. However, in order to expedite allowance of the application, Applicant has agreed to amend Claim 19 by replacing the term "space" with "facet joint" by way of an Examiner's amendment. Applicant, however, reserves the right to pursue claims of similar subject matter in a continuation application.

The Examiner objected to Claims 34, 44, and 45. Applicant agreed to cancellation of these claims to expedite allowance, but believes these claims are allowable and fully supported in the specification. Applicant reserves the right to pursue these claims or claims of similar subject matter in a continuation application.

#### Results of Interview

As memorialized in the Examiner's Amendment dated June 20, 2005, Applicant and the Examiner agreed to amend Claim 19 to replace the term "space" in lines 2 and 6 of the claim with "facet joint" and to cancel Claims 34, 44 and 45.

Applicant also agrees with the additional minor typographical changes to Claim 12 as provided in the Examiner's Amendment.

Appl. No. : 10/827,101
